# Ask A Scientist – STEM Ambassadors, Physics and Neuroscience

14+

Online Panel

Q&A

Join us each day to hear from different scientists about their jobs, their careers and what being 'a scientist' means to them. There will be plenty of opportunity to ask your own questions!

For our second Ask A Scientist Q&A, we'll be joined by STEM Ambassador volunteers [Dr Rebecca Dewey](#), Research Fellow in Neuroimaging at the University of Nottingham, [Dr Janine Swarbrick](#), a patent attorney at a Nottingham-based IP firm, [Dr Holly Campbell](#), Experimental Materials Scientist at the UK Atomic Energy Authority and [Dr Federico Perrotta](#), Consultant at AECOM. We'll find out what it is they do in their jobs, find out about their career paths and what they studied at school, and what it's like to work in their field.
